Skills & Expertise

·HTML	·Materialize CSS	·Javascript	·Express JS	·React
·CSS	·Bootstrap	·jQuery	·Python	·GitHub
·Pure CSS	·Moment JS	·Node JS	·Django	·Heroku

Projects

Seattle Transit | Nov 2018 - Present

Seattle Transit is a full-stack application built with the collaboration of Henry Hong and Christopher Tack. This application is developed with Node.js, Express.js and EJS. My role in the project was more frontend. I took charge of the user interface and experience as well as the mapbox api integration.

Sound Transit Hub | Oct 2018 – Present

Sound Transit Hub is a full-stack application. This application is developed with Python and the Django framework. The database management system used for this app is with Postgres. Some other libraries or frameworks utilized are jQuery and materialized css for ease of development. This application is currently deployed on heroku. This is a Seattle based "review" application for people who would like to know local transit information and share their personal experiences.

Bug Invaders | Sep 2018 – Present

Bug Invaders is a web application game. Developed with vanilla Javascript to hone my DOM manipulation skills. This is a basic defender and wave type game. Utilizing a setInterval game loop for the gameplay to create new enemies on the DOM and increase the speed.

Professional Experience

Office Administrator | Columbia Hospitality | Seattle, WA | Mar. 2018 - Aug. 2018

Run daily reports and update meeting schedules. Liaison between client and meet planner. Prep meeting rooms and ensure client's needs are met. In charge of creating and designing signage.

Lead Front Office Agent | Hotel FIVE | Seattle, WA | Mar. 2016 - Jan. 2018

Performed as the Manager's personal "tech guy" by assisting with all tech inquiries such as networking connectivity, OPERA troubleshooting, and other general issues. Mentored new agents and ensure the success of their accomplishments. Developed new or improve operational procedures and policies to better satisfy company regulations while giving the absolute premium experience for our guests. Maintained the safety of all personnel on the property by preventative quality checks and enforced surveillance.

Front Office Agent | Hyatt Regency Orlando International Airport | Orlando, FL | May 2015 - Oct. 2015

Responsible for checking guests in and out of the property with expertise. Delivered authentic hospitality and guest service by exceeding customer satisfaction. Utilized employee empowerment by investigating concerns and resolving issues. Assembled a plethora of knowledge of the property and area that can rival a concierge. Increased the department revenue by up-selling rooms with creative suggestion.

Education
